Read the deductions. How certain is the person?
Match each sentence to a, b, or c from the box.

a	is certain something is true/happened
b	thinks it is possible that something is true/happened
c	is certain something isn't true/didn't happen

☐ 1 He can't have committed the crime. He was at work when it happened.

☐ 2 The thief must have entered through the door because there weren't any broken windows.

☐ 3 They must not have locked the door.

☐ 4 They might have left the windows open.

☐ 5 He could have come in through a window.

☐ 6 He couldn't have come in through a window. The windows were shut.
