TIPS

- Read the text carefully.
- Understand the main ideas.
- Check the details.

Hi! My name is Laura, and I live in Bogotá with my parents and my younger brother. I am a university student, and I study English and business. **During the week**, I usually wake up early and go to my classes. I often study with my classmates, and we sometimes work on group projects together.

Right now, I am preparing for my final exams, so I am studying more than usual. I am also taking an online course because I want to improve my English skills.

In my free time, I like listening to music and watching series. **On weekends**, I usually visit my grandmother, who lives near my house, or go out with my friends. Sometimes, we try new restaurants.

I can cook simple meals, but I can't prepare difficult dishes. **In the future**, I would like to travel to other countries and learn about different cultures.
