TEST 2 CÁC BÀI ĐỌC ĐIỆN – ĐỌC HIỂU MỚI

1.Read the following passage and mark the letter A, B, C or D to indicate the correct word or phrase that best fits each of the numbered blanks from 1 to 5.

Less than a decade after the birth of the first cloned mammal, Dolly the sheep, a company called Viagen has already _____(1) commercial cloning services promising to clone owners' beloved pets for a fee. Since then, a number of celebrities have cloned their pets. And today, anyone can have their dog cloned for $50,000.

But according to Alan Beck, an animal ecology professor at Purdue University, pet cloning borders on animal_____(2). "You have a large dog population _____ (3) in cages, like any kind of commercial or research area, but this population is not inspected and there's no guarantee that the dogs are well taken care of."_____(4), there are still a number of problems with the cloning process. “All cloned animals have shorter life_____ (5) and more health issues than non-cloned animals,” Beck recently commented, adding that cloned animals also usually don't have the same personality and that there's usually a change in appearance.
