My Favorite Hobby

Hello, my name is Andi. I am a seventh-grade student. In my free time, I enjoy playing badminton. I started playing badminton when I was ten years old because my father often played it with me on weekends. Since then, badminton has become my favorite hobby. I usually practice badminton three times a week with my friends at a sports hall near my house. We often play after school in the afternoon. Playing badminton is very enjoyable because it helps me stay healthy, active, and energetic. It also teaches me discipline, teamwork, and sportsmanship.

Besides playing for fun, I sometimes participate in badminton competitions at school. Although I do not always win, I learn many valuable lessons from each match. My dream is to become a better badminton player in the future. That is why I continue practicing regularly and never give up.
