

Workshop

Constructing a Paper-Based Material (For Teacher)

Directions: Using COCA to construct a paper-based material on the given topic.

Work in group of five people.

Scenario: You are teacher(s) and now teaching at the secondary level (grade 9). Now, it is now time to teach your own students with the topic of **conditional sentence (If-Clause)** focusing on **the 2nd condition**.

At this point, construct a paper-based material employing **COCA** as a main tool regarding this teaching aspect to teach your students. At this stage, you need to consider the level of proficiency of the students in which level they are in based on CEFR framework. Additionally, you might consider adjusting some words from the extracted examples in COCA to match students' level of CEFR.

By using the COCA, please carefully select and extract **15-20 examples** along with guiding questions to lead your students into the lesson.

Original Structure of the Conditional Sentence, The 2nd Condition

Usage	Structure		Example
เงื่อนไขที่เป็นไป ไม่ได้ในปัจจุบัน	If-Clause	Main Clause	If Jane had more money, she would buy a car.
	If + Past Simple	Subject + would + V. Infinitive	

How to do a search in COCA:

1. Go to COCA and type "if, if it was or if I were" to the search box and [click list](#).
2. Click the results and observe them.
3. Extract only examples of if-clause, the 2nd type and carefully select 15 examples from COCA to create your paper-based worksheet.
4. Create 3-4 guiding questions to lead your students to learn on this topic including short answer and grammatical production.

Paper-Based Worksheet

Conditional Sentence (For Students)

Directions: Observe the given sentences and answer the following questions.

No.	Sample Sentences
1.	
2.	
3.	
4.	
5.	
6.	
7.	
8.	
9.	
10.	
11.	
12.	
13.
