

Generic Structure of Recount Text

Activity 1

Please drag and drop the paragraphs below into the correct structure!

- When we arrived around 9 a.m., the first animals we saw were elephants and giraffes. After that, we visited the lion, tiger, and monkey areas. At noon, we had lunch near the lake and later rented bicycles to ride around the park for almost an hour. And finally, before leaving, we bought some souvenirs such as animal-shaped keychains and hats.
- The trip was very enjoyable, and I learned more about different animals. Most importantly, I was happy to spend quality time with my family.
- During the school holiday, my parents took me and my little sister to Ragunan Zoo in Jakarta. It was my second time visiting the zoo, but I was still very excited. We left home early in the morning because we wanted to spend the whole day there.

Paragraphs	Structure
As the day came to an end, we sat together and watched the beautiful sunset over the ocean. The view was peaceful and made us feel relaxed after a fun day. It was a wonderful experience that my family and I will always remember.	
Last Saturday, my family and I went on a trip to the beautiful Kuta Beach. We left home early in the morning and arrived at the beach around 8 a.m. Everyone was excited because we had planned this trip for several weeks.	
We brought a picnic basket filled with snacks and drinks for the day. My siblings and I swam in the sea, built sandcastles, and took many photos together. The weather was sunny, and the cool sea breeze made our activities even more enjoyable.
