

Eat five portions of fruit or vegetables every day.

twinkl.com

Be active for at least an hour a day.

twinkl.com

Drink energy drinks, coffee or tea, which all contain caffeine, to help you stay awake in the day.

twinkl.com

Chew gum instead of cleaning your teeth.

twinkl.com

Have between eight and nine hours of sleep each night.

twinkl.com

Smoke tobacco.

twinkl.com

Play on your phone or tablet in bed at night, before going to sleep.

twinkl.com

Swap crisps, biscuits and sweets for raw vegetables or fruit.

twinkl.com

Add salt to every meal to improve the flavour.

twinkl.com

Take up a new sport, such as swimming, cycling or karate.

twinkl.com

Play on your computer as soon as you get home from school until you go to bed.

twinkl.com

Follow social media a lot and see how many people 'liked' your selfie.

twinkl.com

Take ten minutes each day to think about everything you are grateful for.

twinkl.com

Spend time noticing nature – the leaves, the birdsong, a spider's web, the rain etc.

twinkl.com

Eat some sweet treats after every meal and between meals.

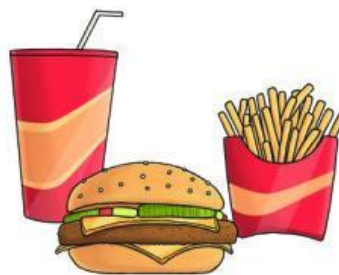

twinkl.com

Have a bath or a shower regularly and wash your hair.

twinkl.com

Eat fast food, such as pizzas, fried chicken or burgers and chips, every weekend.

twinkl.com

Brush your teeth for at least two minutes, twice a day.

twinkl.com

Keep your anxieties and your worries bottled up inside.

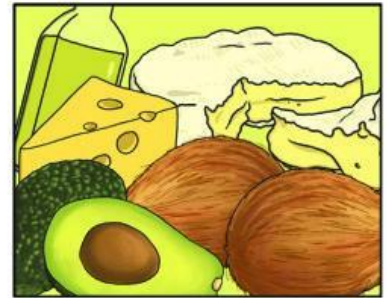

twinkl.com

Spend time with your family and your friends.

twinkl.com

Choose food from the same food group to eat for every meal.

twinkl.com

Drink alcoholic drinks.

twinkl.com

Drink plenty of water to prevent dehydration.

twinkl.com

Take a lot of painkillers for a mild headache.

twinkl.com

Try someone else's asthma inhaler to see what it does for you.

twinkl.com

Decide not to bother washing your hands after using the toilet.

twinkl.com

Start the day with a healthy breakfast to increase your energy levels.
