

NAME: _____ ROOM: _____
DATE: _____ CONTROL NUM: _____

❖ READ THE TEXT AND SAY IF THE FOLLOWING SENTENCES ARE TRUE, FALSE OR DOESN'T SAY.

READING: Life in the Future

Many scientists believe that life will be very different in the year 2100. Technology will continue to develop, and people may use advanced robots to help with daily tasks such as cleaning, cooking, and shopping. Some experts think that many people will work from home using virtual reality offices instead of traveling to work every day.

Transportation could also change dramatically. Flying cars may become common in large cities, and self-driving vehicles could make roads safer. In addition, new forms of public transport might reduce traffic and pollution.

Healthcare is expected to improve because of artificial intelligence and new medical discoveries. Doctors may be able to detect diseases much earlier than they can today. People could also live longer and healthier lives.

The environment will remain an important challenge. Many countries are investing in renewable energy sources such as solar and wind power. Scientists hope these technologies will help reduce the effects of climate change.

Education may become more flexible. Students could attend classes online from anywhere in the world and learn through interactive digital experiences. However, experts disagree about whether traditional schools will disappear completely.

Although many predictions about the future sound exciting, nobody knows exactly what life will be like. Some ideas may become reality, while others may never happen.

1. Scientists are certain about what life will be like in 2100. T F DS
2. Robots may help people with household tasks in the future. T F DS
3. Everyone will work from home in virtual reality offices. T F DS
4. Self-driving vehicles could make transportation safer. T F DS
5. The text says that flying cars already exist in most cities. T F DS
6. Artificial intelligence may help doctors find diseases earlier. T F DS
7. People are expected to live shorter lives in the future. T F DS
8. Many countries are investing in renewable energy. T F DS
9. The text states that traditional schools will definitely disappear. T F DS
10. Students may be able to study online from different parts of the world. T F DS

GRAMMAR

- ❖ COMPLETE THE SENTENCES WITH WILL OR GOING TO. USE THE CORRECT FORM OF THE VERB IN PARENTHESES.

Positive Sentences
