

English I - 2nd Partial Practice

Title: DevTeam Panama: Solving a Software Problem

Student's Name \_\_\_\_\_ I.D.# \_\_\_\_\_ Date \_\_\_\_\_ Total Score: 100 points

Instructions

You are part of a junior software development team. In this practice, you will read a case study, analyze a software problem, classify vocabulary, complete bug reports, and build technical sentences.

Answer clearly and use complete sentences when required.

Part 1. Reading Case Study

DevTeam Panama and the Online Booking App. 15 points

Read the case.

DevTeam Panama is a small software development company located in Panama City. The company creates websites, mobile applications, and business systems for local companies.

One of its clients is a tourism agency that needs an online booking app. The app is called **TripBook Panama**. It helps tourists reserve tours, check available dates, and receive confirmation messages.

The development team has four members. Elena is the project manager. She organizes meetings and communicates with the client. Roberto is the software developer. He writes the code and updates the booking system. Camila is the interface designer. She creates simple and attractive screens. David is the software tester. He checks the app carefully before the team presents it to the client.

Today, the team is testing the app. David finds a problem. The confirmation button is not working correctly. It responds slowly, and sometimes the confirmation message does not appear.

Roberto says, "I am checking the code now."

Camila says, "Maybe the button is too small, or the screen design is confusing."

Elena writes the problem clearly in the project report: "The confirmation feature does not work correctly. The team is testing the button, checking the code, and improving the screen design."

The team wants to solve the problem professionally. They ask questions, listen carefully, and work together because the client needs a reliable app for tourists.

A. Reading Comprehension

Answer in complete sentences.

1. Where is DevTeam Panama located?

\_\_\_\_\_

2. What type of software does the company create?

\_\_\_\_\_

3. What is the name of the app?

\_\_\_\_\_

4. What does the app help tourists do?

\_\_\_\_\_

**Part 5. Sentence Builder Game. Conjunctions and Interjections. 15 points**

**A. Connect the ideas.**

Use **and**, **but**, **so**, **because**.

1. The app opens correctly. The confirmation button does not work.

---

2. Roberto checks the code. David tests the app.

---

3. The screen is confusing. Camila changes the design.

---

4. The client needs the app soon. Elena sends a progress report.

---

5. The app is useful. Tourists can reserve tours easily.

---

**B. Add a professional interjection.**

Choose one: **Great!** / **Oh no!** / **Excellent!** / **Wait!** / **Well done!**

1. \_\_\_\_\_ The confirmation message appears now.

2. \_\_\_\_\_ The button is not responding.

3. \_\_\_\_\_ Please test the app before the meeting.

4. \_\_\_\_\_ The team solved the problem.

5. \_\_\_\_\_ We need to check the screen again.

---

**Part 6. Sentence Structure. Simple and Compound Sentences. 15 points**

**A. Identify the sentence type.**

Write **S** for Simple Sentence and **C** for Compound Sentence.

1. DevTeam Panama creates mobile applications. \_\_\_\_

2. Roberto checks the code, and David tests the app. \_\_\_\_

3. The confirmation button is not working. \_\_\_\_

4. The app opens correctly, but the message does not appear. \_\_\_\_

5. Elena communicates with the client. \_\_\_\_

**B. Write your own sentences.**

1. Write one simple sentence about software development.

---

2. Write one compound sentence using **and**.

---

3. Write one compound sentence using **but**.

---

**Part 7. Types of Sentences in Tech Support. Declarative, Imperative, Interrogative, and Exclamatory. 15 points**

**A. Identify the sentence type.**

Write:

- **D** for Declarative
- **I** for Imperative
- **Q** for Interrogative
- **E** for Exclamatory

1. The confirmation button is not working correctly. \_\_\_\_\_
2. Please restart the application. \_\_\_\_\_
3. Did you update the app today? \_\_\_\_\_
4. Great! The booking system is working now! \_\_\_\_\_
5. The app opens slowly on some phones. \_\_\_\_\_
6. Check the internet connection. \_\_\_\_\_
7. Is the confirmation message appearing now? \_\_\_\_\_
8. Excellent! The problem is solved! \_\_\_\_\_

**B. Write your own tech support sentences.**

1. Declarative sentence:

\_\_\_\_\_

2. Imperative sentence:

\_\_\_\_\_

3. Interrogative sentence:

\_\_\_\_\_

4. Exclamatory sentence:

\_\_\_\_\_

**Part 9. Short Professional Writing. Progress Report. 20 points**

Imagine you are Elena, the project manager. Write a short progress report of **5 to 6 sentences** for the tourism agency.

Your report must include:

1. The name of the app.
2. The problem.
3. What the developer is doing.
4. What the tester is doing.
5. What the designer is improving.
6. A professional closing sentence.

**Starter**

Dear client,

Our team is working on \_\_\_\_\_.

The problem is \_\_\_\_\_.

Roberto is \_\_\_\_\_.

David is

---

Camila is

---

We will

---
