Meet the new BMXers

It was a dark, rainy, winter's day at the National Cycling Centre in Manchester (UK) and I was taking photographs of the girls' BMX team. They were riding around the track with apparently no fear. They all obviously had a real passion for the sport.

Olivia, aged 15, has long, brown hair. She's smart and confident, and the way she was smiling showed how much she loved it. How did she first become interested in BMX? ¹ _____ . Although all the racers were boys, she knew instantly it was the sport for her. 'It's not harder for girls to get into the sport,' she said – anyone can do it. 'BMX gives you knowledge. When you come to the **track**, you learn something new every day.'

So what is a BMX? A BMX is a bike with small wheels and a low seat. Small wheels actually go faster than big wheels at speeds of up to 20 km/h. ² _____ These mean that a bike can travel quickly without the rider using their legs too much. But there are no **gears** on a BMX, so the rider has to pedal a lot to go fast. ³ _____ .

Some BMXers love doing jumps and crazy **stunts** – this is called 'freestyle'. Other riders prefer racing. BMX races are fast but short. ⁴ _____ Both riding styles have something in common: riders fall off their bikes a lot. That's why they all wear a **helmet**, as well as knee and elbow **guards** under their racing clothes.

Many people think that BMX is scary or dangerous, but fear isn't a thought that goes through this BMX team's minds. ⁵ _____ They don't see the difference between male and female, not while they are out on the track doing what they enjoy the most.

The amazing health benefits of snowboarding

Snowboarding is an exciting outdoor activity and is becoming very popular among teenagers. Here, we find out how it can help you to become more healthy and enjoy life more.

Taking chances is a great way to help you to have confidence in yourself – even if you don't get it right the first time. That's why snowboarding is a fantastic way to learn and develop a new interest. I met Kathy Champion, 15, on Mont Blanc, where she explained why snowboarding is a great **benefit** for teens.

(1) _____ At only nine years old, she was already snowboarding with her dad in Scotland and she continues to love it to this day. 'Being in the mountains for hours every day made me feel so healthy and alive,' she says. It helped her to understand how her body works because she learned **techniques** to help her to ride the snowboard properly. (2) _____ 'Snowboarding taught me to believe in myself, even when I was worried about hurting myself.' Did she **get hurt**? 'Yes, once or twice, nothing serious,' she says.

'(3) _____ It made me want to **succeed** even more and get to the bottom of the mountain!'

In what other ways can snowboarding make you healthy and enjoy life more? 'It keeps you very fit, very positive, but it also helps you to make new friends,' Kathy says. (4) _____ 'You have support from people who understand what you're doing and are there to help you improve.' And she thinks the feel-good part of snowboarding can also help teenagers keep out of trouble. 'Some people I know from school laugh at me when I tell them how great I feel after snowboarding. (5) _____' So, what is Kathy's **advice**? 'Get a snowboard, get healthy – and enjoy life!'
