Reading Tips: Skimming and Scanning

Skim through the passage below ,Then choose the one that is the correct main idea of the reading :

- A . The kind of diet we have can cause or prevent diseases.
- B . Doctors advise people to eat more fruit, vegetables, and grains.
- C . Eating meat causes cancer and heart disease.

A Healthy Diet for Everyone

Everyone knows that we must eat food in order to live. However, sometimes, people are confused about what type of food is healthy, and what kind of food can be harmful to our health. The USDA1 has prepared a food guide to help people learn about which types of food are the healthiest to eat. The food guide describes six basic food groups: meat (beef, fi sh, chicken, etc.), dairy (milk, yogurt, cheese, etc.), grains (bread, cereal, rice, etc.), fruit, and vegetables. The last group is fats, oil, and sweets. The USDA also suggests how much of each food group is healthy to eat daily. Although this guide was prepared by the U.S. government, it is very useful for people all over the world.

As a result of years of research, we know that too much animal fat is bad for our health. For example, Americans eat a lot of meat and only a small amount of grains, fruit, and vegetables. Because of their diet, they have a high rate of cancer and heart disease. In Japan, in contrast, people eat large amounts of grains and very little meat. The Japanese also have a very low rate of cancer and heart disease. In fact, the Japanese live longer than almost anyone else in the world. Unfortunately, when Japanese people move to the United States, the rate of heart disease and cancer increases as their diet changes. Moreover, as hamburgers, ice cream, and other high-fat foods become popular in Japan, the rate of heart disease and cancer is increasing there as well. People are also eating more meat and dairy products in other countries, such as Cuba, Mauritius, and Hungary. Not surprisingly, the disease rate in these countries is increasing along with the change in diet. Consequently, doctors everywhere advise people to eat more grains, fruit, and vegetables, and eat less meat and fewer dairy products.

A healthy diet is important for children as well as adults. When adults have poor eating habits, their children usually do, too. After all, children eat the same way as their parents. When parents eat healthy food, the children will learn to enjoy it, too. Then they will develop good eating habits. Doctors advise parents to give their children healthier snacks such as fruit, vegetables, and juice.

Everyone wants to live a long, healthy life. We know that the food we eat affects us in different ways. For instance, doctors believe that fruit and vegetables can actually prevent many different diseases. On the other hand, animal fat can cause disease. We can improve our diet now and enjoy many years of healthy living.

Restaurants

I love restaurants. I never get tired of going to them. I go to restaurants a lot. Maybe three times a week. I have my favourite restaurants, which I go to regularly. The waiters know me and I usually get very good service. But I also like trying new restaurants. It's exciting to see what's on the menu and how the food will taste. Most of the time a visit to a new restaurant is a great experience. But sometimes, I wonder why my friend recommended a restaurant. I've been to a few restaurants where the food was so bad, so tasteless, I didn't want to pay. My favourite restaurants are Indian. I can't get enough of Indian food. I love the smells inside Indian restaurants. And of course the tastes.

Let's read this conversation between the server and Hannah, a native English speaker.

Order at a Restaurant

Server: Hello, welcome to Speechling's Incredible Restaurant! How many people are in your party?

Hannah: We are a party of seven. We have a reservation for 7:30 under the name 'Hannah'.

Server: Great! Follow me to your table.

Server: Here are your menus. Our special for today is mushroom risotto. I'll be back in a moment to take your order.

Server: What would you like to order?

Hannah: To drink, we'll have waters.

Server: Still or sparkling?

Hannah: Still, please.

Server: And to eat?

Hannah: To start, we'll share the truffle croquettes.

Server: Great, and for the main course?

Hannah: I'll have the eggplant parmesan with the salad. For her, she can't have nuts. Does the pesto pasta contain nuts?

Server: Yes, it contains pine nuts. I would recommend the marinara pasta instead.

Hannah: Great. And is that vegetarian?

Server: Yes!

Hannah: Perfect. Now, for him, he would like the garlic pizza. Is it possible to substitute the mushrooms for another vegetable?

Server: Sure, we can add eggplant or peppers.

Hannah: The peppers sound great. That's it!

Server: I'll be back soon with your order!

Server: Here's your food.

Hannah: Oh, this eggplant parmesan is a little cold.

Server: Would you like me to send it back?

Hannah: Yes, please.

Server: I'll be right back with a new plate of eggplant parmesan!

Hannah: Excuse me, we would like the check.

Server: Right away! Together or separate?

Hannah: Together, and with card.

Server: Here you are.

Hannah: I'm leaving a 20% tip because you were so wonderful!

Server: Thank you!

Indian restaurant in Marlow

"Incredibly original Indian cuisine served gracefully in a wonderful location" makes this well-commented-on Marlow destination one of the country's top grand Indians outside the capital. "A beautiful dining room overlooking the Thames" and with a "fabulous view of Marlow Weir" (gorgeous in daytime, perhaps less impactful at night) is the venue for "an enormously enjoyable, fine-dining take on Indian cuisine that's beautifully presented, with lovely spicing, but never being overwhelmed by too much heat". It's "one of those experiences where practically everything is spot on".
