My weekend

Mei

I went to stay with my grandparents at the weekend. They live in a bungalow. It isn't very big, but it's modern and comfortable. We picked apples in the garden and I read a book about some clever children who designed a robot. In the evenings, we played games in the kitchen. One night, we heard loud claps of thunder and saw a lot of lightning through the window. It was spectacular!

Pat

I went to the coast with my mum. Every morning we went swimming at the beach and then we went to a café for a big lunch. I always had some really fantastic carrot cake for dessert! In the afternoons, we went back to the beach and I read a book about a family who went to Iceland and saw the northern lights. I'd like to do that when I'm older!

Rayan

I stayed at home with my parents and my brother and sister. I planted carrots, squash and beans with my mother in the garden. Every evening, we watched the sunset. When I went to bed, I read a book about three children who are the same age as me. They went out in a little boat at night, but they weren't afraid. I'd love to be like them!
