FULL NAME: GRADE/SECTION: 2nd

I. Read the text

MY FAMILY'S FAVORITE VEGETABLES AND FRUITS

Hello! My name is Daniel Garcia, and I am thirteen years old. I live with my family in a beautiful town. There are six people in my family: my father Michael, my mother Jennifer, my older sister Emma, my younger brother Ryan, my grandmother Patricia, and me. We are very close, and we enjoy spending time together, especially during meals.

My father Michael is an engineer. He loves eating vegetables because he wants to stay healthy. His favorite vegetables are carrots, tomatoes, and spinach. He usually eats a salad with lunch and often drinks vegetable juice in the morning.

My mother Jennifer is a doctor. She likes lettuce, cucumbers, and peppers. She believes that vegetables are important because they provide vitamins. She prepares healthy meals for the family every day.

My sister Emma is fifteen years old. She loves fruits, especially strawberries, apples, and grapes. She usually takes fruit to school because it is a healthy snack. Emma also likes making fruit salad for the family on weekends.

My younger brother Ryan is ten years old and he loves sports. He plays soccer and basketball after school. His favorite fruits are bananas and oranges because they give him energy. After every soccer practice, he eats a banana and drinks orange juice.

My grandmother Patricia enjoys cooking traditional food. Her favorite vegetables are potatoes, pumpkin, and onions. She often prepares delicious soups and stews for the family.

As for me, I love broccoli and cauliflower. My favorite fruit is watermelon because it is sweet and refreshing. I also enjoy grapes because they are easy to eat and very tasty.

Every Saturday morning, my family goes to the local market together. We buy fresh fruits and vegetables from local farmers. We usually buy apples, bananas, oranges, strawberries, tomatoes, carrots, cucumbers, lettuce, broccoli, and potatoes. After shopping, we prepare healthy meals and enjoy eating together.

II. Read the statements and write T (True) or F (False).

1. Daniel is thirteen years old. _____
