I've just joined a local sports club near my house. It has a gym, tennis courts, and even a small café. I think you'd enjoy it! Why don't you come with me next weekend? We could play tennis together.

Letter to my friend

Hi!
Thanks for your letter. In my country, the most important traditional festival is Carnival. It takes place every year in February, just before Lent. People celebrate with colorful parades, music, and dancing in the streets. The atmosphere is full of joy and energy, and everyone wears costumes and masks. Families and friends gather to enjoy traditional food, like delicious local dishes and sweets. The festival is important because it represents our culture, history, and sense of community. It's also a moment for people to forget their worries and celebrate together. You should come and see it one day!

Hi \[Friend's Name],

Thanks for your letter! That's great you got a new computer game. I enjoy playing games too, but I don't have a Play Station. I usually play on my computer. My favorite games are adventure or sports games because they are fun and exciting. Besides games, I also use my computer for schoolwork. I often write essays, search for information, and watch videos to help me study. Sometimes I listen to music or chat with my friends online. Computers are really useful, don't you think?

Question 7 – Story

I was standing beside someone famous! It happened last year when I went to a concert with my cousin. Suddenly, I saw my favorite singer walking near the stage, and I couldn’t believe it. People were shouting and trying to take photos. I was lucky because he stopped for a moment right next to me. I was so nervous but managed to say hello, and he smiled back. It was the best moment of my life. I will always remember how exciting it felt to be so close to someone I admire.

Question 8 – Letter

Hi \[Friend's Name],

Thanks for your letter! Wow, hot weather must be difficult. In my country right now it's quite cold because it's winter. Most days are cloudy, and sometimes it even rains. People wear jackets and scarves to stay warm. Even so, there are some outdoor activities we enjoy. For example, families go for walks in the parks, and young people play football on the weekends. I also like riding my bike when the sun is out. The fresh air feels nice, even if it's cold. I hope the weather cools down for you soon!

Question 7 – Story
The Empty House

One evening, my friends and I decided to explore the old empty house at the end of the street. Everyone said it was haunted, but we didn't believe it. The door creaked loudly when we pushed it open, and the rooms were full of dust and cobwebs. Suddenly, we heard footsteps upstairs! We froze, looking at each other in silence. Slowly, we climbed the stairs, but when we reached the top, there was nothing there. Only an open window moving with the wind. We laughed nervously and ran out, promising never to enter that house again.

Question 8 – Letter

Hi \[Friend's Name],

Thanks for your letter! I think both jobs could be fun, but if I had to choose, I'd say working in a café is better. In a café, you can meet many different people, practice speaking with customers, and learn how to make drinks and snacks. It can be busy, but it's more lively than a shop. A shop might be quieter, but sometimes it can get boring if there aren't many customers. If you want a more social and friendly job, go for the café. I'm sure you'll enjoy it a lot!

Hi \[Friend's Name],

It's great to hear about the new restaurant in your town! Yes, I do have a favourite restaurant. It's a small Italian place near my house called *La Piazza*. The food is delicious, especially the pasta and pizza. My favourite dish is spaghetti carbonara because it's creamy and full of flavour. The restaurant has a very friendly atmosphere, and the staff always make you feel welcome. I also like that the prices are reasonable, so I can go there with my friends quite often.

Answer to Question 7

Hi \[Friend's Name],

That's wonderful news about your sister's wedding! In my country, weddings are very special events too. Usually, the bride wears a white dress, and the groom wears a smart suit. Guests often dress in elegant clothes, sometimes in traditional outfits. During the celebration, people eat a lot of delicious food. There is always a big cake, and many families prepare traditional dishes like roast meat, rice, and different desserts. Music and dancing are also very important, and the party can last until late at night. Weddings are really joyful and full of love here.

Hi \[Friend's Name],

That's great that you have a new gym near your house! Near where I live, there are some good sports facilities too. We have a football field, a swimming pool, and a small sports centre where people can play basketball and volleyball. I usually go to the sports centre with my friends at the weekend. I also enjoy running in the park near my home. I try to do sport about three times a week because it helps me stay healthy and gives me energy.

Answer to Question 7

Hi \[Friend's Name],

Your new trousers sound really nice! I usually like wearing casual clothes, especially jeans and T-shirts, because they are comfortable for every day. When the weather is cold, I enjoy wearing hoodies and jackets. For special occasions, I prefer smart clothes like shirts and dark trousers. I sometimes enjoy shopping for clothes, especially if I go with friends, because it's fun to choose new styles together. But if the shops are very crowded, I don't like it so much.

Hi!
Thanks for your letter. I also enjoy watching programmes about animals. Recently, I've really liked a travel documentary about different countries and cultures. It was very interesting because I could learn about traditions, food, and people from around the world. I don't usually watch too much television, maybe about one or two hours in the evening, because I prefer spending time reading or listening to music. However, when I find a good programme, I always try to watch it. What other programmes do you recommend? I'd love to know your favourites.

Hi!
Thanks for your letter. I understand your situation because sometimes it's hard to decide. If you go with your parents, it could be a nice chance to spend time together and visit new places. Family holidays don't happen very often, and your parents will be happy. On the other hand, going with your friends would be fun and more independent. My advice is to go with your parents this time and plan another trip with your friends later. That way, you'll enjoy both experiences.

Letter to my penfriend

Hi!
Thanks for your letter. Moving to a new area sounds exciting, but I understand it’s a difficult decision. A small school in the countryside could be great because you’ll know everyone, and it may feel friendly and calm. On the other hand, a large school in town might offer more activities, subjects, and opportunities to meet different people. I think it depends on what you prefer. If you like a quiet atmosphere, choose the countryside. If you want variety and new experiences, go to the town school.

Best wishes,
