

## Reading: Using GPS and Map Apps

**Directions: Match the words with their correct synonyms.**

Find your way / helpful / means of transportation /  
recognize / final place

- 1. navigate = .....
- 2. identify = .....
- 3. vehicle = .....
- 4. destination = .....
- 5. useful = .....

**Directions: Answer the following questions.**

- 1. What does GPS stand for?  
.....
- 2. How does GPS identify the location of a person or vehicle?  
.....
- 3. What are two features that map apps offer besides showing roads?  
.....

**Directions: Read the statements and circle T (True) or F (False) based on the information in the passage.**

- T / F** Map applications only display roads and do not include features like street views or public transport options.
- T / F** The advantage of GPS and map apps is that they can modify the route in real time if there are change.
- T / F** People who are traveling to new cities and counties will find these tools helpful.
