

# Reading And Speaking A1

Describe what you see in this image. Use the present simple, daily routine.

Direction. Organize the following passages according to the a coorrect sequence of a typical routine

## SARAH'S BUSY LIFE

She finishes work at 4:00 PM. She goes to the gym for one hour before she goes home. In the evening, she relaxes on her sofa and listens to classical music. She cooks a simple dinner at 7:30 PM. She goes to bed at 9:30 PM because she feels very tired.

She starts her day very early. She gets up at 5:00 AM every morning. She has a quick shower and puts on her blue uniform. She does not eat a big breakfast, but she drinks a large glass of orange juice. She leaves her house at 5:45 AM.

Sarah lives in a small apartment in London. She is twenty-nine years old. She works as a nurse at a very large hospital. She loves her job because she enjoys helping sick people every day. She is a very kind and hard-working person.

At 1:30 PM, Sarah has a short break. She eats a healthy salad and a green apple for lunch. She drinks a lot of water because she walks a lot during her shift. She does not drink coffee in the afternoon because she wants to sleep well at night.

She drives her car to work. The hospital is quite far from her home, so the journey takes forty minutes. At the hospital, she helps the doctors and talks to the patients. She works for eight hours and she stays very busy all day.
