I have got friends in Canada. They live in Ottawa. It is the capital city of Canada. It is very big. There are a lot of buildings like skyscrapers, houses and a lot of shopping malls. If you want to relax, you can go jogging in parks, do different sports in sports centres or go to the swimming pool. There are theme parks for people who like entertainment. Tourists usually visit the Museum of Art and History to see famous pictures or they go to cinemas and theatres. Every school has got its own library where pupils can borrow books. There are also a lot of churches and cathedrals. If my friends want to eat out, they can choose from many restaurants. Their favourite is a Chinese restaurant.
