Activity 1: Read the review. Answer the questions that follow.

A **Little Home** is a strange movie, and I'm not sure if I like it. The characters were very creepy and moved like dolls. I think the actors were terrific, though!

The story was fascinating–the movie starts in a house, and we learn more about the character's secrets. As the movie continues, we learn about strange ghosts that live in the house. I thought it was so interesting!

But at the end of the movie, we learn that there are no real ghosts. It was kind of disappointing, to be honest. I wish the story was better.

Thanks for reading my review,

Jihyun
