Toby

Answer:

Thanks for your comment, Toby! Teenage boys can also have _____ with their body image as they are growing up and changing. Fitness for boys is easy when you are young, but the early teenage years can be complicated. You feel you are _____ to play silly games with friends, but _____ to work out in the gym with older guys. Perhaps you haven't got _____ yet to join an adult sports team. But you are never _____ to exercise regularly. If there are _____ where you live, think about running or parkour, or working out at home. Hope this helps!
