A Day at the Funfair

Last Saturday, Tom and his sister Mia went to a funfair near their house. It was a sunny day and the funfair was very busy.

First, they went on the big wheel. Mia was a little scared, but Tom was very happy. "Look at the town from up here!" he said.

After that, they wanted to try the bumper cars. Tom drove very fast and bumped into Mia's car three times! They both laughed a lot.

Next, they walked past the roller coaster. It was too fast for Mia, so she waited and watched Tom ride it alone. He screamed all the way down!

In the afternoon, they had ice cream and went into the fun house. There were funny mirrors everywhere, and Tom looked very tall and very short at the same time!

At the end of the day, Mia said, "Let's come back next weekend!" Tom smiled and said, "Good idea! Next time, I want to try the bungee trampoline."

Linh's Blog: Fun Things To Do Near My House

Hi everyone! I live near a big park, so there are lots of fun things to do at the weekend.

On Saturday morning, I usually go to the sports centre and play table tennis with my friend Huy. It's a lot of fun, and we always laugh a lot!

When it's sunny, my family likes to go for a picnic in the park. We take sandwiches, fruit and juice, and we sit under a big tree.

Last month, we went to a museum in the city. I saw some very old toys and a huge dinosaur bone! It was amazing.

My favourite activity is going to the funfair with my cousins. We go on the merry-go-round and the bumper cars, and we always eat cotton candy.

Next weekend, I want to go bowling for the first time. I have never been bowling before, so I'm very excited!

1. What does Linh play with Huy on Saturday morning?
 2. What does Linh's family take to the park for a picnic?
 3. What did Linh see at the museum last month?
 4. What is Linh's favourite activity with her cousins?
 5. Has Linh ever been bowling before?
