The Seasons

Example In^{many}..... countries there are four seasons in the year. These are
 1 called spring, summer, autumn and winter. season is
 about three months long and then a new season comes.
 2 In the north of our planet summer usually in June. It
 is the warmest time of the year and it sometimes does not get dark
 3 10 o'clock at night. In September it gets colder and the
 4 trees their leaves. This season is called autumn. Winter
 5 comes in December it is usually very cold and a lot of
 countries have snow. On some winter days, it gets dark at about
 6 4 o'clock the afternoon so the days are very
 7 and the nights are long.
 In March the weather gets warmer and plants and flowers start to
 8 grow This season is called spring.
 9 In the south of the planet the countries have the seasons,
 10 but they happen at different times the year. They have
 summer in December and winter in June.
