The dining room

The colour orange can make you feel hungrier at mealtime. It also encourages more interesting talk between family members.

The bedroom

The perfect colour for your bedroom is blue. It is a very relaxing colour, and can make you feel happier and more positive when you wake up in the morning.

The study

Yellow is a good colour for this room: it makes you feel happier and helps you to think. It also makes dark spaces a little brighter.

The living room

The perfect colour for your living room is pink. Don't use such colours as red, purple, and black because they don't help you to relax.
