SECTION 4: Reading Comprehension & Scanning (5 Items)

Directions: Read the passage below, then scan the text to answer the 5 multiple-choice questions that follow.

Passage: Discovering Cambodia

Cambodia, located in the southern portion of the Indochina Peninsula in Southeast Asia, spans a total area of 181,035 square kilometers. It is bordered by Thailand to the northwest, Laos to the north, Vietnam to the east, and the Gulf of Thailand to the southwest. The capital and largest city is Phnom Penh, which serves as the political, economic, and cultural center of the nation.

One of Cambodia's most famous historical treasures is Angkor Wat, a massive monument built during the early 12th century by King Suryavarman II. Originally constructed as a Hindu temple dedicated to the god Vishnu, it gradually transformed into a Buddhist site toward the end of the 12th century.

Another crucial natural feature is Tonle Sap, the largest freshwater lake in Southeast Asia. This unique lake expands significantly during the annual monsoon season due to water backing up from the Mekong River, making it vital to the country's ecology and fishing industry.
