FIRST CONDITIONAL

Reading Comprehension

Read the text and complete the activities.

A Greener Future

We all want a better world to live in. Everyone can help protect the environment. If people recycle more, they will reduce the amount of waste in landfills. If we save water, there will be enough for everyone.

Students can make a big difference too. If they turn off the lights when they leave a room, they will save energy. If we use public transportation, there will be less pollution in the air.

Small actions can lead to big changes. If everyone works together, we will have a cleaner and healthier planet for future generations.

A. Multiple Choice

Choose the correct answer.

1. **What is the main idea of the text?**
   - a) People should use more plastic.
   - b) Everyone can help protect the environment.
   - c) Students should turn off the lights.
   - d) There will be more pollution in the future.

2. **What will happen if people recycle more?**
   - a) There will be more waste in landfills.
   - b) They will save more water.
   - c) They will reduce the amount of waste in landfills.
   - d) They will use public transportation.

3. **What will happen if students turn off the lights when they leave a room?**
   - a) They will save energy.
   - b) There will be more pollution.
   - c) They will have more water.
   - d) They will create more waste.

4. **What will happen if everyone works together?**
   - a) We will have a cleaner and healthier planet.
   - b) We will use more public transportation.
   - c) We will have less energy.
   - d) We will have more landfills.

B. True or False

Read the sentences and choose True or False.

1. If we save water, there will be enough for everyone. — True / False
2. Students cannot make a difference. — True / False
3. If we use public transportation, there will be more pollution in the air. — True / False

C. Matching

Match the beginnings with the correct endings.

1. If people recycle more,	a. there will be less pollution in the air.
2. If we save water,	b. there will be enough for everyone.
3. If we use public transportation,	c. they will reduce the amount of waste in landfills.
