Listen to and read Clara and Neil's descriptions of their homes. Are the following sentences (1–8) true (T) or false (F)?

Clara

I live in a small apartment in the city. I like to be comfortable, so I have thick carpets, and a big, soft sofa. There are also lots of big cushions on the floor, because my friends often visit me. I have about six vases because people often bring me flowers. In my bedroom, I have a huge wardrobe – I'm crazy about fashion, so I have a lot of clothes, and a mirror in every room!

Neil

My house does not have much furniture. I don't even have a real bed – just a mattress on the floor. There is a chest of drawers in the bedroom, but most of the drawers are empty – I'm not interested in clothes, only books. I have hundreds of books, and my study is full of bookshelves. In my living room, I have four wooden chairs. I don't have any armchairs, because I don't want visitors to stay too long!
