

My Beach Holiday

Hello, everyone! I want to tell you about my summer. I went to the beach with my family

The weather was hot and sunny. We swam in the sea and built a big sandcastle. In the evening, we ate seafood together. I loved this holiday

Visiting My Grandparents

Last summer, I visited my grandparents in the countryside.

Their house is near a green rice field.

The countryside was quiet and beautiful.

I was very happy because I could spend time with my grandparents.

My Summer Camp

This summer, I joined a three-day camp.

At first, I was nervous because I didn't know anyone. Soon, I made two new friends.

We played games, sang songs, and learned to put up a tent.

The camp made me braver and more confident.

Creative Summer at Home

I did not travel last summer, but I still had a wonderful time at home.

I read comic books and learned to draw animals. My mother taught me how to make lemonade.

My summer was simple, but it was fun and full of happy moments.
