

PET READING PART 5

For each question, choose the correct answer.

Saving Endangered Animals

Many wild animals are now in danger because people are changing the environment. Forests are being cut down, so many animals lose the places where they live.

Wildlife experts are working hard to **21** _____ endangered animals. Some animals are taken to rescue centres when they are injured or found in dangerous places.

When the animals become healthy again, they are often **22** _____ to safe areas in national parks, where they can live in their natural habitat.

Many people do not **23** _____ that buying products made from wild animals can harm nature. Learning more about endangered species helps people make better choices.

Although many organisations are trying to protect wildlife, some animals are still disappearing because their **24** _____ is becoming smaller every year.

If we all work together, we can help many endangered animals **25** _____ in the future.

Every small action is important because protecting wildlife also helps protect the natural **26** _____ of our planet.

- 21**
- A. collect
 - B. protect
