LISTENING GAP-FILL (PET B1)

Instructions: Listen and complete the script.

Woman: How was the hotel you stayed in?
Man: It was **(1)** _____ enough and easy to reach from the station, but it wasn't **(2)** _____ distance from the city center, which is how it was advertised. It looked closer on the map. It was on a **(3)** _____ road, so that was convenient for taxis, but there was lots of **(4)** _____. I was worried it'd be noisy in my room at night, but I hardly heard anything.
Woman: Would you **(5)** _____ it for me and my husband?
Man: I was in a **(6)** _____ room and there was only just enough **(7)** _____. Fine for me, but not really big enough for two.

Man: Ah... We've finally **(8)** _____ off!
Woman: I'm so pleased. It's a while since I've flown, but I recently started a new **(9)** _____ and the long distances I need to travel for it just make flying a better option than the train.
Man: I know what you mean. I do this same journey every month when I visit my family. They live a long way from the capital. I get **(10)** _____ flying, but it's just so much easier than any other form of transport.
Woman: That's absolutely true, but I can never get comfortable in the seat. I like watching movies though to **(11)** _____ the time.

Girl: How's your grandma's house?
Boy: I like it. Although it is small, it has a very big **(12)** _____ but the colors aren't what I've ever chosen. However, that's not a problem.
Girl: Is it near your house?
Boy: Yes. I can walk there in ten minutes, which means I visit her very often. My grandma's house is next to my school, so sometimes I sleep there when I want to stay a bit longer in bed in the morning. That's really great.

Boy: Wow, that was fantastic. I can't hear well now, though.
Girl: It wasn't too loud. That's just how a live **(13)** _____ should be.
Boy: It was too loud for me. I also think they sold more tickets than they should have done.
Girl: I was thinking the same thing. When you go to a concert, you should be able to watch it in comfort.
Boy: I don't mind paying for expensive **(14)** _____ so long as you can move when you are in there. I couldn't get to the other side to meet some of my friends.

Girl: Is that a new bag you've got there? It's so cool. Where did you buy it?
Boy: Actually, I do most of my shopping online nowadays. I really hate going into shops as there is too much **(15)** _____. I get anxious and then can't make decisions. I always end up buying something I don't really like.
Girl: Me too. But isn't there a bit of a danger buying online? I bought some expensive shoes once, and they were nothing like the picture on the site.
Boy: Okay, you're right. But generally, I've been happy with what I've bought, so it works for me. Stress-free shopping.
