

Mouse Pointers in Excel

How does your mouse look and what is your mouse saying?

As you move the mouse over the Excel window it changes shape to indicate the availability of different functions. Match the definition with the picture/name of the cursor.

- 1) _____ This pointer appears when you move your mouse to the bottom right corner of a cell.
- 2) _____ This is used to select menu options or buttons on your ribbon or toolbars.
- 3) _____ You see this mouse when you go to the borders of a cell.
- 4) _____ This cursor allows you to select cells.
- 5) _____ This pointer appears when you move your mouse to the border between the row headings (numbers).
- 6) _____ This pointer appears when you move your mouse to the border between the column headings (letters).
