Ocha : Well, according to the news, the company is currently conducting a test with some users of its Android app. There is a confirmation prompt when a user tries to retweet an article they haven't opened.

Adhit : That's exactly what I feel. So why doesn't Twitter just ban fake news?

Ocha : Have you heard that the social media app Twitter is attempting to reduce the spread of misinformation on its platform by stopping people from sharing articles they have not read?

Adit : That's for sure. What are your thoughts on all of this?

Ocha : Let's campaign against hoaxes. Help children and young people recognize them by developing critical thinking.

Adhit : It's really good news. How do you think the company does it?

Ocha : If you want my honest opinion, I support the company. Misinformation and fake news are a huge problem on all social media platforms and we have to start controlling it.

Adhit : Absolutely, do you want to add something about this?

Ocha : As far as I'm concerned, that's easier said than done.
