

Ex.1. Put the conversation in order. Write the number on the line.

..... Don't worry. It's not the end of the world.

..... Oh, no! I could kick myself. I missed my eye doctor appointment!

..... Don't be so hard on yourself. Just call the office and reschedule.

..... Sort of. My eyes have been really irritated lately . . . I just forgot.

..... Well, I feel bad about it. I wish I had set a reminder on my phone!

..... Was it for something urgent?

Ex.2. Look at the pictures. Write the correct medications from the box.

a decongestant	a nasal spray	a painkiller	an antacid
an ointment	cold tablets	cough medicine	eye drops

Ex.2. Read about the people's symptoms. What medication should they take? Circle all the correct answers.

1. Karl burned his hand while taking a pizza out of the oven. What can he use on his hand to make it feel better?

- a) a nasal spray b) an ointment c) an antacid
d) an antihistamine e) a decongestant*

2. Iris woke up with a bad headache and a runny nose, and now she can't stop coughing and sneezing. A lot of people in her office have been sick this week. She probably caught something from them. What medications might make her feel better?

- a) cold tablets b) an antihistamine c) cough medicine d) eye drops e) a nasal spray*

3. It's spring, and every morning Elaine wakes up with red eyes and a runny nose. She doesn't have a cough, but her nose is stuffed up, and she has to breathe through her mouth. When she walks in the park, her symptoms get worse, and she sneezes a lot. What might make her feel better?

- a) an antihistamine b) eye drops c) cough medicine d) an antacid e) a nasal spray*

4. Ryder eats a lot of junk food. Lately, every time he eats pizza or potato chips, he gets a stomachache. His doctor thinks he isn't eating enough fruits and vegetables. He wants to start eating healthier, but for now he needs something to help him feel better fast after the high-fat lunch he had. What should he take?

- a) antibiotics b) vitamins c) a decongestant d) an antacid e) an ointment*
