

Morphological Analysis

You will study the structure of 10 words; for each one, you must complete the required fields by identifying its prefix, base or root, and suffix, and briefly writing its general meaning by combining the senses of its parts (for example, for the word *unhappiness*: prefix *un-*, root *happy*, suffix *-ness*, and meaning "state of not being happy"), ensuring that you write your answers clearly and individually in the corresponding short-answer spaces before submitting the form.
