The Great School MasterChef Competition

Every year, San Jose High School organizes a healthy cooking competition. This year, student chef Mario is preparing a special Mediterranean salad. To make this delicious dish, Mario needs a lot of fresh ingredients. He goes to the local market and buys some red apples, three tomatoes, two cucumbers, and two big bags of fresh lettuce.

However, Mario also requires liquids and condiments to create the salad dressing: he uses a little olive oil, some salt, a splash of lemon juice, and a bottle of fresh water. Mario says: 'Preparing a salad is much easier than cooking a hot soup, but selecting the freshest vegetables is the most important step of the recipe.'

Mario can cook extremely well because his grandmother taught him her secret recipes when he was younger. He can chop vegetables very fast, but he cannot use electric slicers or sharp chef knives without adult supervision. Mario trains in his kitchen every Saturday. His younger sister Luisa doesn't like cooking, but she always helps him wash the dishes and clean the table after dinner.
