READING

Read the text. Choose the best answers (a, b, or c).

What's trending in home entertainment?

Home entertainment is changing all the time. Back in the 80s, people started watching videos on their home TVs. Before that, we used to watch TV or listen to music, and that was all! Actually, that's not completely true, because people used to listen to the radio a lot, and radio, of course, was the main form of entertainment before TV arrived.

These days, the TV picture is great, our screens are very big, and many of us enjoy watching things from the internet on our televisions. But the main change is that we have lots of different types of entertainment in one place—we can play games on a TV, but we can listen to the radio or stream music and videos as well. Remember how we used to have a separate device for each of these things? Well, not anymore!

And what about the future? Experts say that we can expect some exciting new ideas, like huge screens where we can watch several programs at one time. TV on demand is already a big thing—no more waiting for your favorite show. It will sound good as well, and, of course, controlling everything using our voice will become normal.

- 1 In the 80s ...
 - a people didn't use to watch videos.
 - b people used to watch videos on their TVs.
 - c people used to watch videos on the internet.
- 2 Listening to the radio ...
 - a became popular in the 80s.
 - b was always more popular than watching television.
 - c was popular before we started watching television.
- 3 Today, we ...
 - a are happy with what we watch.
 - b don't use our TVs anymore.
 - c only care about watching things on the internet.
- 4 A big difference today is that we have ...
 - a a lot of devices.
 - b a device for every kind of entertainment.
 - c few devices compared to the past.
- 5 In the future, we can expect ...
 - a to control all our devices by speaking to them.
 - b to have small screens.
 - c to have to wait for good shows.
