

LEMBAR KERJA PESERTA DIDIK (LKPD) BAHASA INGGRIS – PROCEDURE TEXT

Satuan Pendidikan : SMK
Program Keahlian : Teknik Komputer dan Jaringan (TKJ)
Kelas/Semester : XI / Ganjil
Elemen : Reading and Viewing
Materi : Procedure Text
Topik : How to Work Safely in a Computer Network Laboratory
Alokasi Waktu : 2 Pertemuan × 4 × 45 menit

A. IDENTITAS MURID

Nama :
Kelas :
Kelompok :
Tanggal :

B. TUJUAN PEMBELAJARAN

1. Mengidentifikasi informasi tersurat dari teks procedure text.
2. Menentukan tujuan komunikasi teks.
3. Mengidentifikasi struktur teks procedure text yang meliputi *goal, materials/equipment*, dan *steps*.
4. Mengidentifikasi kosakata dan kata kerja yang digunakan dalam prosedur keselamatan laboratorium jaringan komputer.
5. Menganalisis urutan langkah (*sequence of steps*) dalam teks.
6. Menyimpulkan informasi tersirat berdasarkan isi teks.
7. Mengevaluasi apakah suatu prosedur keselamatan telah dilakukan dengan aman atau tidak.
8. Menghubungkan informasi dalam teks dengan situasi nyata di laboratorium TKJ.
9. Memberikan alasan atau pendapat berdasarkan bukti yang terdapat dalam teks.

C. PETUNJUK UMUM

1. Bacalah setiap petunjuk kegiatan dengan teliti.
2. Kerjakan tugas individu secara mandiri sebelum berdiskusi.
3. Tandai kata atau informasi penting dalam teks.
4. Gunakan bukti dari teks ketika menjawab pertanyaan analisis.
5. Gunakan Bahasa Inggris pada bagian yang meminta jawaban dalam Bahasa Inggris.
6. Berpartisipasilah secara aktif dalam diskusi kelompok.
7. Jangan hanya menuliskan jawaban, tetapi pahami alasan di balik jawaban tersebut.

PERTEMUAN 1 – UNDERSTANDING THE PROCEDURE TEXT

Alokasi waktu: 4 × 45 menit (180 menit)

AKTIVITAS 1 – WARM-UP (20 menit)

Look at the Situation

Bayangkan kamu sedang melakukan praktik memasang kabel jaringan di laboratorium TKJ. Perhatikan peralatan berikut:

Answer the questions.

1. Have you ever used a LAN cable or crimping tool?
☐ Yes ☐ No
2. What can happen if a network cable is installed carelessly?
.....
3. Why do students need safety procedures in a computer network laboratory?
.....
4. Which equipment do you think is important for safe network installation?
.....

AKTIVITAS 2 – VOCABULARY PREVIEW (20 menit)

Pasangkan kata berikut dengan arti yang tepat.

No.	Word/Phrase	Meaning
1.	network cable	A. alat penguji kabel
2.	crimping tool	B. kabel jaringan
3.	LAN tester	C. konektor jaringan
4.	RJ45 connector	D. alat pemotong/pengupas kabel
5.	switch	E. alat untuk memasang konektor RJ45
6.	damaged cable	F. kabel yang rusak
7.	unplug	G. mencabut sambungan
8.	secure	H. mengamankan

Answers:

1.
2.
3.
4.
5.
6.
7.
8.

AKTIVITAS 3 – READING TEXT (30 menit)

HOW TO WORK SAFELY IN A COMPUTER NETWORK LABORATORY

A computer network laboratory contains various equipment such as computers, network cables, switches, routers, and testing tools. Students must follow safety procedures before and during network installation. These procedures help prevent electrical hazards, equipment damage, and accidents.

Materials and Equipment

- computer
- network cable
- RJ45 connectors
- crimping tool
- LAN tester
- network switch
- safety shoes

Steps

First, prepare the work area. Make sure the table and floor are clean and dry. Remove unnecessary objects from the working area.

Second, check all network equipment before using them. Make sure the cables, connectors, computers, and switches are in good condition.

Third, organize the network cables properly. Do not leave cables scattered on the floor because someone may trip over them.

Fourth, turn off or unplug the equipment before connecting or disconnecting cables when required. Never touch electrical connections with wet hands.

Fifth, connect the network cable carefully to the appropriate port on the computer or network switch. Make sure the connector is properly inserted.

Sixth, use the LAN tester to check the network cable. Observe the indicator lights and make sure the cable works correctly.

Seventh, if you find a damaged cable or unusual condition, stop working and report it to the teacher or laboratory technician. Do not try to repair electrical equipment without permission.

Finally, after finishing the activity, disconnect the equipment safely, organize the cables, clean the work area, and return all equipment to its proper place.

Remember: Never work with electrical equipment using wet hands.

AKTIVITAS 3 – FIND THE EXPLICIT INFORMATION (30 menit)

Jawablah pertanyaan berdasarkan informasi yang tertulis langsung dalam teks.

1. What is the purpose of the procedure?
.....
2. Mention three materials or pieces of equipment needed for the activity.
a.
b.
c.
3. What should students check before using the network equipment?
.....
4. Why should students not leave cables scattered on the floor?
.....
5. What should students do if they find a damaged cable?
.....
6. What should students do after finishing the activity?
.....

AKTIVITAS 5 – COMMUNICATIVE PURPOSE (20 menit)

Pilih jawaban yang paling tepat.

The main purpose of the text is to ...

- A. describe different types of computer networks
- B. explain how to work safely in a computer network laboratory
- C. compare different network cables
- D. explain how computers are manufactured

Answer:

Explain your answer.
.....
.....

What is the target reader of this text?
.....
.....

AKTIVITAS 6 – TEXT STRUCTURE (30 menit)

Lengkapi tabel berikut berdasarkan teks.

Structure	Information from the Text
Goal	
Materials/Equipment	
Steps	

Answer the questions.

1. What is the goal of the procedure?
.....
2. Why are the materials/equipment mentioned before the steps?
.....
3. Which part contains the actions that the reader must follow?
.....

AKTIVITAS 7 – ACTION VERBS (15 menit)

Temukan minimal 8 action verbs dari teks.

No.	Action Verb	Meaning
1.		
2.		
3.		
4.		
5.		
6.		
7.		
8.		

Challenge

Mengapa procedure text banyak menggunakan kata kerja tindakan (action verbs)?
.....
.....

AKTIVITAS 8 – FIRST REFLECTION (15 menit)

Lengkapi kalimat berikut.

1. The purpose of the text is ...
.....
2. The most important safety rule is ... because ...
.....
3. One safety rule I learned today is ...
.....

PENUTUP PERTEMUAN 1 – EXIT TICKET

Sebelum meninggalkan kelas, jawablah satu pertanyaan berikut:

What is one thing you should NEVER do when working with network equipment? Why?
.....
.....
