Read the passage and mark A, B, C or D to indicate the correct answer to each of the following questions.

Music plays an important role in the modern life. It is a huge part of a teenager's life, and most of us can't imagine life without it. Hip-hop, rock, rap, country, jazz, heavy metal, and others attract many young fans. But teens do more than listen. Some three million American teens study music in school, through private lessons, or simply on their own and thousands participate in "garage bands", practicing and creating songs in the garages of their own or their friends' homes.

High school can be a very stressful time. That's why music is so important to many teens. It helps us cope with the daily stresses of school and helps us avoid pressure from our parents. It helps us to **express** our emotions and comforts us when we feel no one understands us.

The beauty of music is that there are so many kinds and so many ways to connect to it. A girl I know' fell in love with music when she was twelve. She was going through a lot with her family, and her dad helped her through it by showing her the power of music before he died. She says music helps her get away from her problems and keeps her feeling okay when everything in her life is hard.

Everyone has his or her own personal connection to music. Personally speaking, I find that music fills me with something wonderful that 1 can't even begin to explain. What's your connection?

Read the following passage and mark A, B, C, or D to indicatethe correct answer to each of the questions.

Our life is nowadays is different from that in the past. The phrase "healthy lifestyle" is a definition of how you should live if you want to get the healthiest body you can- one that both looks good and feels good. You know the obvious behaviors that describe someone who is healthy and takes care of themselves. A healthy person doesn't smoke, eats healthy foods with plenty of fruits, vegetables and fiber and, of course, exercises regularly. A healthy person also knows how to manage stress, gets good quality sleep each night, doesn't drink too much, doesn't sit too much, does everything in moderation all the time. When you look at everything that could possibly make a healthy lifestyle, you can see just how hard all of those things are in our current world.

There is no such thing as a "bad" food, but there are some foods you should try not to have regular basis. Fast food refers to food that can be prepared and served quickly. It is popular as the food is inexpensive, convenient, and tastes good. Because fast food is high in sodium, trans-fat, and cholesterol, **it** isn't something you should eat often.

The good news is that you don't have to change everything at the same time. In fact, the **trick** to healthy living is making small changes-taking more steps each day, adding fruit to your cereal, having an extra glass of water, or saying no to that second helping of buttery mashed potatoes. One thing you can do right now to make your lifestyle healthier is to move more.
