

My cat Petra sometimes (1) *tries* (try) to sleep on me and I (2)  (wake up). After that I (3)  (not sleep) all night. She (4)  (not want) to sleep on my bed at weekends. She only (5)  (do) it on the night before an exam!

We (6)  (have) a problem with our hamsters, Ben and Gerry. During the day, they're quiet and they (7)  (not come) out. But at night they (8)  (have) a big party!
