

Using pushes and pulls

Things you will need:

balloons

string

What to do:

- 1 Blow up the balloon and tie a knot in it.
- 2 Cut a piece of string about 50 cm long. Tie one end of the string around the knot in the balloon.
- 3 Get a friend to help you tie the other end of the string around your wrist.
- 4 See how many times you can punch the balloon into the air.

Results:

- 5 What happened when you punched the balloon and tugged on the string?

- 6 Use the words in the box to complete the sentences.

pull push
