Reading Comprehension: My Camping Experience at Mount Bromo

My Camping Experience at Mount Bromo

Last month, my family and I went to Mount Bromo for a weekend getaway. We planned this trip for weeks because we wanted to see the famous sunrise together.

We left our house very early in the morning around 3.00 AM. During the trip, the weather was extremely cold, so I wore my thick jacket and a wool beanie. After driving for two hours, we finally arrived at the base camp area.

When we reached the viewpoint, many other tourists were already waiting. While waiting for the sun, my father bought hot tea and warm fried bananas from a local seller. It tasted delicious in that cold weather.

Suddenly, the sky changed its color from dark blue to bright orange.

Everyone started taking pictures with their phones and cameras. I felt amazed by the stunning scenery. Before heading back home, we visited the vast whispering sand area. It was truly an unforgettable holiday!
