

### Question: 60

CertyIQ

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has an Azure AD tenant named contoso.com that contains several Windows 10 devices.

When you join new Windows 10 devices to contoso.com, users are prompted to set up a four-digit pin.

You need to ensure that the users are prompted to set up a six-digit pin when they join the Windows 10 devices to contoso.com.

Solution: From the Microsoft Entra admin center, you configure automatic mobile device management (MDM) enrollment. From the Microsoft Intune admin center, you create and assign a device restrictions profile.

Does this meet the goal?

A.Yes

B.No

### Question: 61

CertyIQ

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has an Azure AD tenant named contoso.com that contains several Windows 10 devices.

---

When you join new Windows 10 devices to contoso.com, users are prompted to set up a four-digit pin.

You need to ensure that the users are prompted to set up a six-digit pin when they join the Windows 10 devices to contoso.com.

Solution: From the Microsoft Entra admin center, you configure automatic mobile device management (MDM) enrollment. From the Microsoft Intune admin center, you configure the Windows Hello for Business enrollment options.

Does this meet the goal?

A.Yes

B.No

- Use the principle of least privilege whenever possible.
- Enable the users in the MKG department to use Appl.
- Pilot co-management for the IT department.

You are evaluating which devices are compliant.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

## Answer Area

| Statements            | Yes                   | No                    |
|-----------------------|-----------------------|-----------------------|
| Device1 is compliant. | <input type="radio"/> | <input type="radio"/> |
| Device3 is compliant. | <input type="radio"/> | <input type="radio"/> |
| Device4 is compliant. | <input type="radio"/> | <input type="radio"/> |

---

## Answer Area

User1 can enroll a maximum of:

▼

5 devices  
10 devices  
15 devices  
1,000 devices  
An unlimited number of devices

User2 can enroll a maximum of:

▼

5 devices  
10 devices  
15 devices  
1,000 devices  
An unlimited number of devices

## Answer Area

Policy1:

|                               |   |
|-------------------------------|---|
|                               | ▼ |
| Device1 only                  |   |
| Device2 only                  |   |
| Device3 only                  |   |
| Device4 only                  |   |
| Device2 and Device3 only      |   |
| Device1 and Device3 only      |   |
| Device1, Device2, and Device3 |   |

Policy2:

|                               |   |
|-------------------------------|---|
|                               | ▼ |
| Device1 only                  |   |
| Device2 only                  |   |
| Device3 only                  |   |
| Device4 only                  |   |
| Device2 and Device3 only      |   |
| Device1 and Device3 only      |   |
| Device1, Device2, and Device3 |   |

**Question: 73****HOTSPOT**

Your network contains an on-premises Active Directory Domain Services (AD DS) domain that syncs with an Azure AD tenant. The tenant contains the users shown in the following table.

| Name  | Member of | On-premises sync |
|-------|-----------|------------------|
| User1 | Group1    | Disabled         |
| User2 | Group2    | Enabled          |

You assign Windows 10/11 Enterprise E5 licenses to Group1 and User2.

You deploy the devices shown in the following table.

| Name    | Operating system | Joined to |
|---------|------------------|-----------|
| Device1 | Windows 11 Pro   | Azure AD  |
| Device2 | Windows 11 Pro   | AD DS     |
| Device2 | Windows 10 Pro   | Azure AD  |

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer Area**

| Statements                                                                                | Yes                   | No                    |
|-------------------------------------------------------------------------------------------|-----------------------|-----------------------|
| If User1 signs in to Device1, Device1 is upgraded to Windows 11 Enterprise automatically. | <input type="radio"/> | <input type="radio"/> |
| If User2 signs in to Device2, Device2 is upgraded to Windows 11 Enterprise automatically. | <input type="radio"/> | <input type="radio"/> |
| If User2 signs in to Device3, Device3 is upgraded to Windows 11 Enterprise automatically. | <input type="radio"/> | <input type="radio"/> |

| Status  | Name           | DisplayName                           |
|---------|----------------|---------------------------------------|

| Stopped | RasAuto        | Remote Access Auto Connection Manager |
| Running | RasMan         | Remote Access Connection Manager      |
| Stopped | RemoteAccess   | Routing and Remote Access             |
| Stopped | RemoteRegistry | Remote Registry                       |
| Stopped | RetailDemo     | Retail Demo Service                   |
| Running | RmSvc          | Radio Management Service              |
| Running | RpcEptMapper   | RPC Endpoint Mapper                   |
| Stopped | RpcLocator     | Remote Procedure Call (RPC) Locator   |
| Running | RpcSs          | Remote Procedure Call (RPC)           |

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

## Answer Area

| Statements                                                                               | Yes                   | No                    |
|------------------------------------------------------------------------------------------|-----------------------|-----------------------|
| From Computer2, you can use Disk Management to manage Computer1 remotely.                | <input type="radio"/> | <input type="radio"/> |
| From Computer2, you can use Registry Editor to edit the registry of Computer1 remotely.  | <input type="radio"/> | <input type="radio"/> |
| From Computer3, you can use Performance Monitor to monitor the performance of Computer1. | <input type="radio"/> | <input type="radio"/> |

**Question: 76**

HOTSPOT

You have a Microsoft 365 subscription that uses Microsoft Intune and contains the users shown in the following table.

| Name  | Member of | License          |
|-------|-----------|------------------|
| User1 | Group1    | None             |
| User2 | Group1    | Microsoft 365 E3 |
| User3 | Group2    | Microsoft 365 E5 |

Group2 has been assigned in the Enrollment Status Page.

You have the devices shown in the following table.

| Name    | Operating system | Department |
|---------|------------------|------------|
| Device1 | Windows 10 Pro   | Marketing  |
| Device2 | Windows 10 Home  | Research   |
| Device3 | Windows 10       | Marketing  |

You capture and upload the hardware IDs of the devices in the marketing department.

You configure Windows Autopilot.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer Area**

| Statements                                                                      | Yes                   | No                    |
|---------------------------------------------------------------------------------|-----------------------|-----------------------|
| User1 can complete the Autopilot process on Device1.                            | <input type="radio"/> | <input type="radio"/> |
| User2 can complete the Autopilot process on Device1.                            | <input type="radio"/> | <input type="radio"/> |
| User3 can view device setup information during the enrollment phase of Device1. | <input type="radio"/> | <input type="radio"/> |

**Question: 78**

CertyIQ

DRAG DROP

Your company has a computer named Computer1 that runs Windows 10. Computer1 was used by a user who left the company. You plan to repurpose Computer1 and assign the computer to a new user. You need to redeploy Computer1 by using Windows Autopilot. Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

**Actions**

**Answer Area**

Upload the file by using Microsoft Intune.

Generate a CSV file that contains the computer information.

Reset the computer.

Generate a JSON file that contains the computer information.

Upload the file by running `azcopy.exe`.

**Question: 98**

CertyIQ

DRAG DROP

You have a Microsoft Intune subscription that is configured to use a PFX certificate connector to an on-premises Enterprise certification authority (CA).

You need to use Intune to configure autoenrollment for Android devices by using public key pair (PKCS) certificates.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

**Actions**

**Answer Area**

From the Microsoft Intune admin center, configure enrollment restrictions.

From the Enterprise CA, configure certificate managers.

Obtain the root certificate.

From the Microsoft Intune admin center, create a trusted certificate configuration profile.

From the Microsoft Intune admin center, create a PKCS certificate configuration profile.

### Question: 100

CertyIQ

DRAG DROP

You have 500 Windows 10 devices enrolled in Microsoft Intune.

You plan to use Exploit protection in Microsoft Intune to enable the following system settings on the devices:

- Data Execution Prevention (DEP)

- Force randomization for images (Mandatory ASLR)

You need to configure a Windows 10 device that will be used to create a template file.

Which protection areas on the device should you configure in the Windows Security app before you create the template file? To answer, drag the appropriate protection areas to the correct settings. Each protection area may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

### Protection areas

### Answer Area

Account protection

App & browser control

Device security

Virus & threat protection

DEP:

Mandatory ASLR:

### Question: 104

CertyIQ

DRAG DROP

You have a Microsoft 365 subscription that contains two users named User1 and User2.

You need to ensure that the users can perform the following tasks:

- User1 must be able to create groups and manage users.
- User2 must be able to reset passwords for nonadministrative users.

The solution must use the principle of least privilege.

Which role should you assign to each user? To answer, drag the appropriate roles to the correct users. Each role may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

## Roles

## Answer Area

Global Administrator

Helpdesk Administrator

Security Administrator

User Administrator

User1:

User2:

- Platform: Windows 10 and later
- Require BitLocker: Require
- Mark device noncompliant: 5 days after noncompliance
- Scope (Tags): Tag1
- Name: Policy2
- Platform: Windows 10 and later
- Firewall: Require
- Mark device noncompliant: Immediately
- Scope (Tags): Tag2

On January 5, you assign Policy1 and Policy2 to Group1.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

## Answer Area

| Statements                                    | Yes                   | No                    |
