Don't catch a cold!

It's horrible to have a cold. You sneeze and cough. Your nose runs and you can feel very tired or have a headache.

What can you do to stop getting a cold?

- ◆ Fresh air helps, so open windows and go for walks outside.
- ◆ Wash your hands often because hands which are not clean can spread colds.
- ◆ Eat a healthy diet to keep your body strong. Fruit is especially important and scientists think oranges can help because they have a lot of vitamin C.
- ◆ Get lots of sleep because when you are tired you can get ill more easily.

If you are unlucky and do get a cold, what can you do to avoid giving it to others?

- ◆ Colds are passed on through the air, so don't cough or sneeze near other people's faces.
- ◆ Use tissues when you blow your nose or sneeze. Then put the tissue in the bin and wash your hands.
- ◆ Don't share cups because you can pass on a cold this way, too.

3 Complete the mind map.

walking fruit search the Internet swimming open windows listen to music
