

Education — IELTS Writing Task 2

1. University education

Some people believe that university education should be free for all students. To what extent do you agree or disagree?

2. Practical skills vs academic subjects

Many people think that practical skills such as cooking, financial management and home repairs should be taught in schools. Others believe that academic subjects are more important. Discuss both views and give your own opinion.

3. Homework

Some people believe that children should not be given homework by their schools because they already have enough to learn in the classroom. To what extent do you agree or disagree?

4. Parents and homework

Some people believe that parents should help their children with homework, while others think children should do it independently. Discuss both views and give your opinion.

5. University vs work experience

Some people believe that studying at college or university is important for a successful career. Others think that it is better to leave school and find work to gain experience. Discuss both views and give your opinion.

6. Purpose of higher education

The purpose of higher education should be to prepare students for employment rather than to develop independent thinking. To what extent do you agree or disagree?

7. Online learning vs classroom learning

Some people believe that online learning will completely replace traditional classroom teaching in the future. To what extent do you agree or disagree?

8. Teachers vs technology

The best way to improve education in secondary schools is to employ more teachers rather than use technology. To what extent do you agree or disagree?

9. AI in education

Some people believe that artificial intelligence will improve the quality of education, while others think that its use could have negative consequences for students. Discuss both views and give your own opinion.
