

Which Type of AI Regulation?

Look at each scenario and choose the most suitable type of AI regulation.
Discuss with your group and write the correct type under each scenario.

1 The government makes an official rule to protect people's personal data when using AI.

?

2 A school provides recommendations for students on how to use AI safely and responsibly.

?

3 An AI system must pass technical safety tests before it is allowed to be used.

?

4 AI should treat everyone fairly and not discriminate based on gender, nationality or background.

?
