

4 Listen to the extracts from films and TV programmes. What type are they?

- | | | |
|-------------------------|---------------|-------------------|
| 1. cartoon | cookery show | sports programme |
| 2. cookery show | romantic film | talent show |
| 3. travel show | horror film | superhero movie |
| 4. science-fiction film | documentary | cartoon |
| 5. drama series | horror film | cookery programme |
| 6. documentary | romantic film | sports programme |

TechMaster

Screen time? Screen-tastic!

Some adults say that teens are always in front of a computer screen or playing games on a **console**. But what about the positive side to technology? In today's TechMaster post we meet four people who use modern tech to get super creative.

Zachary Maxwell is a teenager from New York. He describes himself as **shy** but he has meetings with politicians. Why do they meet him? Because of his videos. Zachary made his first documentary when he was eight. He often uses his films to raise awareness about problems in his school or **neighbourhood**. Zach uses a camera to make his films, but don't worry if you don't have one; with a phone, anyone can become a film-maker today.

The app Musical.ly (now called TikTok) helped 16-year-old **twins**, Lisa and Lena Mantler from Germany, to become social media superstars. The sisters spend 20 minutes a day making videos to post on the app and now have over 16 million **followers**.

When he was 16, David Eisman started Pixelman Productions. David doesn't write programs. He organises the team. They're working on their first game, Mirka. If you're into video games, why not make one yourself? At make-video-games.com there are lots of tutorials and programmes to help you make an awesome strategy game.

COMMENTS

Zoey: I normally **upload** a video on TikTok once a week. But I'm not as good as Lisa and Lina!

Reply TechMaster: No problem Zoey - the important thing is having fun!

Ross: I use an app called Animaker to make cartoons.

Reply TechMaster: Great Ross - thanks for sharing!

Candy K: My local arts centre has a film-making club three times a month.

- ¹ What are the people doing in the photo?
- ² What do you think they are making?

Photo 1: the boys with the camera

Photo 2: the person with the computer

Photo 3: the two girls

a) a cartoon	b) a documentary	c) a film	d) a music video	e) a talent show	f) a travel programme	g) a video game
