

Name: _____ Date: _____
Subject: English as a Foreign Language Teacher: _____
Grade: Sixth School cycle: 2026

General instructions: Work in order and neat. Listen and read the instructions carefully for each series. The use of liquid paper is not allowed. Avoid crossing out words.

First Series (20 points) Listening

Listen to each student talk about what they are going to take and number each item.

1 Amy

2 Emir

3 Henrietta

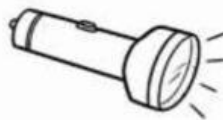

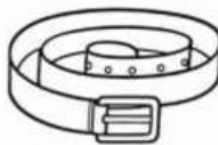

4 Yoon

5 Marta

1

Second Series (20 points) A Journey to Space Vocabulary

Read and complete the sentences with a word or phrase from the box.

gravity

~~planet~~

orbits

fuel

oxygen

solar system

space station

0. Jupiter is a planet.
1. You need _____ to breathe in space.
2. A _____ is a place of work for astronauts.
3. The sun is part of the _____.
4. Astronauts can fly in space stations because there isn't any _____.
5. The moon _____ the Earth every month.

Part 1. Modal Verbs of Obligation. Read the sentences and select the correct modal.

1. You ____ damage wildlife in the park.

2. You ____ take a charger so your phone has power.

6. That planet ____ Earth because it has rings.

7. When I'm older, I ____ to space.

8. We ____ many more planets and stars in the future.

- 

Fourth Series (20 points) Reading Comprehension
Read the conversation. Then write T for True or F for False.

Chris: Hi, Mom! We read a news report about three students who will travel into space. There's going to be a rocket launch. They will orbit the Earth before they fly into space. It is going to be amazing!

Mom: Where will it land? Is it going to land on another planet?

Chris: First, it will land on a space station. After that, some of the crew who fly the rocket will travel to Mars.

Mom: Wow, that must be fun and interesting, too.

Chris: Yes, but an astronaut's job is difficult. There's no gravity up there, so when the crew is in the space station, they fly around. It looks fun, but it's difficult when you are working! Also, if there is a problem with an engine, they won't come back to Earth. One of the astronauts must repair it in space!

1. The rocket will go around the Earth.

T

F

2. The rocket will land on Mars first.

T

F

3. All of the astronauts are going to Mars.

T

F

4. Chris doesn't think an astronaut's job is easy.

T

F

5. There isn't any gravity on the space station.

T

F

Fifth Series (16 points) Vocabulary: Space Definitions
Match each space word with its correct definition. Use different colors

0. Astronaut

A. a place where astronauts live and work

1. Rocket

B. an instrument that helps us see objects in space

2. Space Station

C. a person who travels into space

3. Telescope

D. an object that moves around a star

4. Planet

E. a vehicle that travels into space
