Reading

6 Read the blog post and write **E** (Ester), **P** (Paulo) or **M** (Megan).

What style of music do you like?

From pop to rock, the type of music we enjoy can be very different to other people's. In today's world, we can stream any kind of music. And there's lots to discover! I spoke to three people and they told me about unusual types of music they listen to for entertainment.

Ester

A while ago, I was looking for information for a school project and discovered a group. They were giving a live performance of Gamelan music. I really liked it, so I listened to more of the music and read about it. It comes from Indonesia and is very traditional. It takes around forty people to play and they use bells (they make a 'dong' sound when a player hits one) and drums. Performers usually wear traditional dress during a live performance, and they can play faster or slower depending on the part of Indonesia the music's from. It sounds magical and I love it.

Paulo

Folktronica music is my favourite. It includes traditional music and electronic music. I first heard it after I read a review online. It was about a group from Eastern Europe. They livestreamed an event. The review was really positive, so I watched the concert online and it was awesome. It started in the 1980s and is still popular today.

Megan
