

At the beach

Last week, my family and I went to the beach. We were very happy. We planned to do many fun things together.

When we arrived, we ran to the sand. My younger brother found a tiny crab crawling near the sea. We all started laughing.

Suddenly, my brother screamed so loudly. The tiny crab ran away into the sand. We went near the sea to see where it had gone.

Next, my siblings and I played with the beach balls. We also built big sandcastles. We had so much fun!

After that, we changed places and had a picnic on the beach. We ate our food and picked up beautiful seashells from the sand.

Finally, we sat together and watched the waves. We were happy to spend time with our family. It was a wonderful day at the beach!
