

HAZE AND AIR POLLUTION

English Language | PPKI High Level | 60 minutes

Name: _____ Class: _____ Date: _____

Learning Objectives

Identify five haze-related words; answer at least four out of five reading questions; write three meaningful sentences.

PART A • STUDY NOTES

Vocabulary

HAZE	Jerebu	POLLUTION	Pencemaran
SMOKE	Asap	MASK	Pelitup muka
COUGH	Batuk	HEALTHY	Sihat

PART B • READING PASSAGE

Haze and Our Health

Haze is a type of air pollution. It happens when tiny particles in the air make the sky look grey and cloudy. Haze can be caused by forest fires and open burning.

Haze can cause coughing, eye irritation and breathing difficulties. During hazy weather, we should reduce outdoor activities, drink enough water and follow health advice. We should avoid open burning to keep our environment clean.

EXERCISE 1 • MULTIPLE CHOICE

Read the passage on page 1. Circle the correct answer. (5 marks)

1. What is haze?

- ☐ A. A type of air pollution
- ☐ B. A type of food
- ☐ C. A type of sport
