

Comparative Forms Of Adjectives

Write the comparative form of each adjective.

How We Compare

When we want to say one thing is more than another, we change the word. We often add **-er** to the end of a word. For example, a cat is small, but a mouse is **smaller** than a cat. **Look** at the word change to see how it works.

Build Your Vocabulary

Write the comparative form for these 10 words. Remember to follow the spelling rules!
