

Cambridge Preliminary – PET – Use of English Part 5

Sharks

Sharks are (0)..... some of the most frightening creatures in our oceans. They are well prepared for feeding under water because they can (26) very well, and they can also (27) movement through special lines on the sides of their bodies. These make sharks very (28) for smaller sea creatures that become their food.

Although sharks are similar (29) other fish in a number of ways, their bodies are different. For example, unlike other fish, most sharks (30) to swim all the time in order to breathe and stay alive, (31) they hardly sleep at all. Also, if sharks are turned over on their backs, they can stop moving (32) This is a very useful technique for researchers (33) are often required to (34) sharks. It allows them to (35) out more about these fascinating creatures.
